

### R2885P SECONDARY CARTRIDGE FUEL FILTER

#### PRODUCT SNAPSHOT

##### Part Number:

R2885P Secondary cartridge fuel filter

##### Standard Size:

M14x1.5 thread

##### Micron Rating:

<4 micron

##### Dimensions:

Height : 106.00mm

Width: 78.50mm

Length: 78.50mm

**Service Interval:** Replace the secondary fuel filter every 70,000km.

Consider upgrading the fuel system with a Ryco Fuel Water Separator to offer additional protection against water and particle contamination.

##### Purpose:

The Toyota 1GDFTV 2.8L engine is fitted with both primary and secondary fuel filters. The secondary filter provides filtered fuel to the separate DPF fuel injector. Primary fuel filter maintenance is performed using standard servicing protocols, the secondary fuel filter is not included as part of regular servicing, subsequently this filter is not generally replaced by vehicle owners. This is compounded by the fact that while the primary fuel filter maintenance is performed using standard servicing protocols, the secondary fuel filter is often overlooked as part of regular servicing.

**Applications:** Toyota 1GDFTV engines fitted to the following vehicles:

- Hiace, 2015../on
- Hilux, 2015../on
- Landcruiser 11/2023../on
- Prado, 2015../on
- Fortuner, 2015../on
